

F.I.S.H.E.S

Fishermen Invested in Science, Healthy Ecosystems, and Sustainability

October 1 - November 5, 2026

Registration open now through September 24

This online course offers science-based information to **fish enthusiasts** (ages 18+), and covers topics such as Gulf of Mexico fisheries management, fisheries science, and human impacts.

See two gear types in action onboard our research vessel, and get hands-on experience with some of the northern Gulf's most important species.

Each participant may bring one guest free of charge!

This course consists of five 2-hour online lectures and one 5-hour field excursion:

Classroom sessions will be asynchronous, and accompanied by 5 hours of required reading.

The field excursion is scheduled for Sunday, October 25, 2026 at the Dauphin Island Sea Lab on Dauphin Island, AL

Coordinated by the MSU Marine Fisheries Ecology Program

Dr. Marcus Drymon, Assistant Extension Professor

Amanda Jargowsky, Extension Associate

\$150 registration fee*

Participants may receive CEU credits!
